iDocpro
intelligent Document processing

1. App

Collect data throughout your business

2. Portal

Control your Business from the cloud

3. CRM

Customer Relationship Management linked with your data

4. Reporting

Gain Insights hidden in your collected data to improve your competitiveness

Let **your ideas** shape **your solution**

iDocpro is the App & Portal solution designed to provide businesses with a time saving and cost-effective approach to digitising your workflow.

iDocpro takes your outdated, paper reliant processes and transforms them into modern and effective tools within your business. Enabling increased quality-control, centralised database management and automated reporting. Integrate the amazing new capabilities of tablets and smartphones, with the power of cloud computing.

Start your digital transformation today.
